For the training of evaluators in FYR Macedonia, the exact date is not determined yet, but it is submitted by partners from FYR Macedonia that a workshop could be held the first week in November because of the not-availability of the same in late October. All terms of workshops will be more elaborate in detail, because possible problem could be dates of flights of arrival / departure at the workshop. It is also proposed, although not mandatory, that the same people are sent to the workshops.

Also, they proposed a sort of exhibition of such promotional material and said they will send a written proposal for a marketing campaign.
